Re: Serial No.: 10/649,997
Inventor: Mori, et al.
Title: Universal Serial Bus Hub and Method of Manufacturing
Same
Filed: August 26, 2003
Attorney Docket No.: 0172097

Dear Sir/Madam:

This letter provides a Supplemental Information Disclosure Statement under 37 C.F.R. 1.56, 1.97, and 1.98, and a record of a telephone interview between the responsible US Patent and Trademark Office Examiners and Applicants' counsel that occurred on February 9, 2006.

Enclosed herewith for filing in the above-identified application are the following:

1. This Letter (3 pgs.);
2. Form PTO/SB/08a listing 20 US patents and patent applications and three Japanese patent applications (2 pgs);
3. Form PTO/SB/08b listing three Internet Publications (1 pg);
4. Copies of the Japanese patent applications listed on form PTO/SB/08a (56 pgs);
5. Copies of the Internet Publications listed Form PTO/SB/08b (7 pgs);
6. Check 2000 in the amount of \$180.00; and

7. Self-addressed, prepaid postcard to acknowledge receipt of these documents.

Applicants request that the references identified and enclosed herein be considered by the Patent Office before issuance of the next action and made of record in this file. The Examiner is asked to initial and return a copy of the enclosed Forms PTO/SB/08a and PTO/SB/08b to provide evidence of such consideration.

This information disclosure statement includes several Japanese published patent applications which are in Japanese except for the abstracts. Applicants' knowledge of the relevance of these Japanese applications is based primarily on to the information revealed by the abstracts and the drawings. Publication number 2001-306181, specifically, mentions USB receptacle 12 on surface 23a and a plurality of USB receptacles 12 on the surface along the vertical direction. A computer-generated English translation of this patent application is also provided. This information disclosure statement also includes several documents printed from the Internet. These documents are short, and any of the pages may be relevant.

Further, Applicants wish to thank Examiner Hung T. Nguyen and Supervisor I.B. Patel for the courtesy extended to Applicants counsel in a telephone interview conducted on February 9, 2006 before this letter was sent. In that conversation, Applicants' counsel explained some of the advantages of the Applicants' USB port hub and the Applicants concern about on-going infringement by at least one competitor. Applicants' counsel explained that he had just obtained the results of a search that he had recently ordered from an outside search firm, and that Applicants would be submitting a supplemental information disclosure statement in the near future. Further, it was acknowledged that any agreement made in this conversation would be contingent upon the Examiner(s) reviewing the art that was to be submitted in the IDS. With that being said, Applicants' counsel offered to cancel claim 1 and rewrite the dependent claims thereon in independent form, each with all of the limitations of claim 1. Applicants' counsel also offered to pay the additional fees that would be required due to the increased number of independent claims resulting from the proposed claim amendment. At first, Applicants' counsel offered to submit a claim amendment as the next course of action, but after discussing this with the Examiners, it was decided that it would be best for the Examiners to review the art cited in the forthcoming IDS first, and then possibly enter an Examiner's amendment. The Examiners said they would look mainly at claim 2, but would keep in mind the other independent claims that would result from the amendment proposed by Applicants' counsel. Without making a commitment regarding the art yet to be submitted, Examiner Patel said that the proposed claim amendment would be sufficient to overcome the previously considered art, at least with respect to claim 2.
